Summary Of County Agent's Report For Year

(The annual report of the County Agent of Appomattox County, R. B. Hudgins, is concluded herewith:)

In the beginning of the period covered by this report, the County Agricultural Board was revised and each member, totaling 66, was selected by the various Federal and State agencies working in the county. The ten community committies consist of a chairman, with 3 to 5 members. The chairman is automatically a member of the executive committee. This committee holds monthly meetings and sometimes meets on special calls. These meetings are timely in that they give the chairman of the community committees a better understanding of the various agricultural and economic problems of the county. These meetings are of the utmost importance because this committee forms the policies along the various lines carried out by the extension workers and other agencies.

For instance, the executive committee met the first of January for the purpose of discussing the needs and growing demand for lime in this county and many other counties furnished by the State Lime Grinding Plant No. 2 located in the community. Resolutions were immediately drawn up requesting the State Legislature to appropriate sufficient funds for the establishment of a new lime grinding plant. In order that we might bring pressure to bear on the Legislature as to the needs of the new plant to supply this growing demand for lime, we secured the assistance of twenty-two other county agricultural boards requesting them to pass similar resolutions, thereby we were fortunate in getting a thirty thousand dollar appropriation.

Our State Senator and a few other leaders were untiring in their efforts along this line. The new plant is now being installed and will be operating by the first of February, 1941.

The professional workers also have monthly meetings which are helpful in getting acquainted and understanding of each others problems and developing a more co-operative spirit. The team work between these agencies is 100 per cent harmonious.

Agronomy

Rotation— This part of our farm program, three and four year rotation, is being used at all times. Rarely do we have a protesting of farmers without something being said about our rotation. The acreage of clover, mixed grasses, and lespedeza is increasing as is the use of lime and phosphate.

Many of our farmers now realize in their rotation on steep land the importance of terracing, cropping with contour tillage, employing the use of terraces where needed.

Good Seed— There is no part of an agronomy program that pays larger dividends for time spent in selection and saving high quality seed. There are 22 farmers growing certified seed and for the first time in the history of the county there is one farmer growing certified clover seed.

Weather conditions this season rendered saving of red clover seed very difficult due to a long wet spell in the heighth of the ripening period. However, approximately 200 of our farmers will have sufficient seed for home use and many of them seed for sale. One farmer completed his thrashing before the wet spell with a return of 31.5 bushels.

Pastures— The number of farmers carrying out pasture improvement work with lime, phosphate, seeding and reseeding was 167. The writer is encouraging the use of domestic rye grass in pasture mixtures. In one 8.5 acre pasture demonstration seeded the first of October, using ten pounds of domestic rye grass in pasture luxure, is now ready for winter grazing and the owner was requested a few days ago to turn his cattle in on this pasture for winter grazing only when the ground is sufficiently dry. Other pasture demonstrations consist of a mixture of lespedeza, herds grass, and domestic rye which the writer has found will afford a splendid summer and winter grazing.

Fertilizer— A large percentage of our farmers are using fertilizers of higher analysis and are using fertilizers on all crops in their 3 and 4 year rotations, and many of them top dress grains with nitrate of soda using around 100 pounds per acre in the spring on small grain following corn.

Fire-Cured Tobacco

During the ten day campaign on dark-fired tobacco referendum there were 16 meetings held, attended by bankers, business men, warehousemen and tobacco buyers, with a total attendance of 1,060 farmers. As a result of the meetings 867 ballots were cast with 810 voting for marketing quotas for three years; 18 voting for marketing quotas for one year; only 39 voting against marketing quotas Percentage of those voting, 96.5 per cent for quotas and 98.1 per cem, who favored three-year quotas.

Livestock

There is a gradual increase in livestock to supplement the income from decreased tobacco acreage, as reported in the summary, to aid in the control of erosion and to balance the farming system. Due to the loss of foreign markets for dark-fired tobacco, which normally demands 60 per cent of the production, and low prices now prevailing, emphasis in the future should and will be placed on livestock. Fourteen this year purchaser eighteen purebred animals to head their herds or flocks.

A considerable time of the agent was given to better care and management of the stock, also giving treatment for parasitic control, prevention of suckling and other diseases. In connection with the veterinarian a campaign for the treatment of Bots as started last winter, 126 animals being treated. This work will be taken up again this winter. Two bulls and one stock were purchased during the year.

Poultry— Time given to this line of work consisted chiefly of culling, sanitation and general care for external and internal parasites.

Farm Security Administration

Perhaps unintentionally more time was given to the Farm Security Administration than other agencies in meeting with the county farm security board, personal visits to the farm and home of their clients and attending group or community meetings.

The following facts gives a clear picture the status of farm community its work and accomplishments in Appomattox county. There are 87 active standard rural rehabilitation farmers in Appomattox county, 63 of whom are white and 24 colored. In the past year 4 tenant purchase loans have been made totaling $15,150.50. Our personnel is working on several more loans which will be granted or approved in 1941.

From the beginning of this agency $46,520.29 has been advanced to this group; $23,548.15 has been repaid. From reports given this office 19 of the borrowers in this county show an increase in the average net worth from $676.00 for the year before acceptance on the program to $1,131.00 for the year 1939.

From statistics and records kept 56 active farm security borrowers last year, show they owned 92 cows, 1935 hens, 35 farmers raised enough hogs for pork and lard, 11 farmers grew their own wheat for the first time and 28 farmers in addition to

Skilled Trades To Be Taught In Class Here

Progress is being reported in efforts to set-up defense program vocational classes in metal work, under the sponsorship of the Federal Government and local and state educational authorities. Professor V. H. Gill says that classes here will be under way by January 15, at the latest.

John Dabney, of the Dabney Machine Works & Foundry, Lynchburg, one of the best mechanics in this section of the state, will be the instructor.

Classes will be held three evenings each week at the shop in the vocational agriculture building on the school campus. Hours will be from 6 to 11 P.M. on Monday, Wednesday and Friday.

Classes will be made up of boys and young men from 17 to 25. Only 12 boys will be permitted to take the five-month course, and it is expected that a waiting list will be formed for those not able to get in the class at the start.

Instruction, paid for by the government, will be offered in electrical welding, machine lathe work, cutting of cogs, wheels and pull-ys; riviting hot and cold metal, forge welding all types of forge work in metals and pipe work.

Special equipment is being purchased with Federal funds, and added to that already in the shop.

Those who take this course will be qualified to get jobs in the defense program and will be registered with the government agency in Lynchburg as available for jobs requiring skilled workmen.

FARRAR—FIZER

A wedding of interest to Appomattox and Bedford society solemnized on December 21, at 8 P.M., in the home of Mr. and Mrs. William Elliott Fizer, of Bedford, when their daughter, Ruth Hayden, became the bride of Mr. Norman Kenneth Farrar, of Pamplin. Rev. John R. Fizer, of Charlotte, C., uncle of the bride, was the officiating minister.

The ceremony was performed in front of an improvised altar of Boston ferns, chrysanthemums, and cathedral candles. The house, the ancestral home of Miss Fizer's grandfather, was beautifully decorated with evergreens and candles.

Mrs. Royall Fizer, sister-in-law of the bride, played several selections before the ceremony, and "Because" was rendered by Mr. Rose Bonazza, of Bedford. The bridal party entered to the strains of Lohengrin's wedding march. Miss Fizer played softly during the wedding vows.

Miss Fizer, who was given in marriage by her father, was gowned in white slipper satin, made on princess lines, with leg o'mutton sleeves and train. Her finger tip veil of illusion was held in place by a coronet of orange blossoms. Her flowers were white Killarney roses, gardenias, and valley lilies.

Miss Fizer's maid of honor, Miss Wray Kinzer, of Bedford, was gowned in peach broadcld taffeta, princess model, and her flowers were talisman roses.

Mr. Farrar, son of Mr. and Mrs. Norman Ernest Farrar, of Pamplin, was attended by his brother, Stuart M. Farrar, as best man.

The flower girl was little Miss Rebecca Jane Fizer, neice of the bride, who wore an empire gown of yellow taffeta. The ring was borne on a white satin cushion by Master Richard Stanley Baldwin, of Pamplin.

After a reception for the wedding guests, which included members of the two families and other close relatives and friends of the couple, Mr and Mrs Farrar left for a week's tour of Florida.

Mrs Farrar attended Radford State Teacher's College and the University of Virginia, and had taught in Appomattox and Bedford counties. She is at present a member of the faculty at New London.

Mr. Farrar attended Hampden-Sydney College and Virginia Polytechnic Institute, and is now with the State Engineering Department, located at Appomattox.

Increase Noted In Marriage Licenses Issued In 1940

While most Virginia counties saw a decrease in the number of marriage licenses issued during the year 1940, perhaps attributable to the new law requiring doctor's certificates, there was actually an increase in Appomattox county.

During the year 1940, 87 marriage licenses were issued here by the county clerk. This compares with 81 in the year 1939. June and July were the months in which most marriage licenses were issued.

Four May Be All In Race

Richmond, Jan. 1. (By VPA)- With the long-awaited declaration of Colgate Darden, Jr., Virginia's representative for the Second Congressional District, that he would enter the primaries next August 5 as a candidate for the Governorship, the political situation appeared to be clarifying, most observers seemed to agree.

In the running with Congressman Darden as formal entrants are State Senators Hunsdon Cary, of Henrico, and Vivian L. Page, of Norfolk, and Speaker of the House Ashton Dovell, of Williamsburg.

Senator William M. Tuck, of Scott, Boston 9 time governor candidate who has so far announced for Lieutenant Governor.

In announcing his candidacy, Representative Darden let it be known that he will resign from Congress before he begins campaigning. His formal statement follows:

"I shall be a candidate for Governor of Virginia, subject to the Democratic primary of next August.

At a later date, as the campaign gets under way, I shall present a legislative program dealing with State problems that, in my opinion, require thoughtful and serious consideration. I hope that the program will deserve and receive the approval of the people of Virginia."

Prominently mentioned as potential successors to Representative Darden is Winder R. Harris, managing editor of the Norfolk Virginian Pilot, and Norman R. Hamilton, publisher of the Portsmouth Star and a former member of Congress from the Second District.

"HOWARDS OF VIRGINIA"

Manager John Caldwell of the Lee Theatre announces that the Virginia-made movie, "The Howards of Virginia" will be shown here on Monday and Tuesday of next week. This is an outstanding attraction, and will be enjoyed by all who see it.

Mr. Caldwell also advises that a telephone, Number 100, has been installed at the Lee Theatre for the convenience of the patrons.
